Done

9. Media Info: Get the video's information, such as Source, Track info, Format.

How to airplay videos from iPhone/iPod/iPad to computers

Make sure your computer and iPhone/iPad/iPod are in the same network before you can airplay.

IPod 🗢 18:09 3 📭	AirPlay
	iPod touch
	dong-PC
	jiangzl's iMac
* · ×	Mirroring
	Kodi (dong-PC)
	noconnect
 ↓ → → → → → → → → → → → → → → → → → → →	With AirPlay Mirroring you can send everything on your iPod's display to Apple TV, wirelessly.

Step One: First, you need to run 5KPlayer on your Mac. After you've added your AirPlay-enabled devices like iPhone, iPad and Mac to the same network, they can automatically detect all its receivers.

Step Two: You just need to swipe up from the bottom of your screen to access control center and tap AirPlay. A list of AirPlay enabled devices will appear. Choose the name of your Mac to connect. Or you can airplay during your playback on your iPhone/iPad/iPod, simply click the icon on lower right of your iPhone/iPad/iPod screen, choose the computer you want to airplay to.

Tips: 1. If you are running an AirPlay-enabled application, such as YouTube, Netflix, Spotify, etc, the AirPlay icon will be visible in the video's navigation bar, you just need to tap the icon and choose the devices you would like to airplay to.

2. It is not suggested to turn on "Mirroring", because 5KPlayer does not support mirroring iPhone/iPad/iPod screen at this moment.

Step Three: Once you tap the name, you are connected to the computer and could immediately begin streaming video music from AirPlay-enabled devices and apps to 5KPlayer and watch your media files on bigger screen.

How to AirPlay videos from computer to computer/Apple TV?

Make sure your two computers are in the same network signal before you can airplay.

Step One: Double Click 5KPlayer, AirPlay tab is on the upper right corner of the interface. Click AirPlay tab and choose the Apple TV from the drop-down menu. If you have multiple Apple TVs on your network, select the one to which you would like to mirror. Once the AirPlay is enabled the AirPlay tab will turn red.

Step Two: Add Video/Music to the program and it will automatically airplay to the computer/Apple TV you connect. You can also airplay during video music playback on your computer. Just click Airplay and choose the computer/Apple TV you want to airplay.

Note: Currently, airplay only supports videos in MP4, M4V and music in Mp3. If you need to AirPlay DVD, MKV, M2TS, AVCHD, AVI, WMV, FLV, etc, you need the assistance of <u>video converter software for Windows</u> or <u>Mac</u> to convert your DVDs and video files to the format for AirPlay

How to add video/music for playback?

There are several ways to add videos/music for playback:

1. Add Video/Music from the program. Click the Video or Music icon on the main interface of 5KPlayer, choose the video or music you want to play and press Open. You can also double click the video or music to enable playing.

2. Add Video/Music from system menu bar. Go File -> Open Media File in the system bar

3. Add Video/music via "Drag and Drop" Drag and Drop the video/music to the main interface or program icon

4. Right click on the media file and choose 5KPlayer to open. Once a video file is opened, 5KPlayer will be made as the default player for your computer. You can double click your media file it supports to open with 5KPlayer.

5 Right click on the main interface. Right click on the main interface of 5KPlayer and choose Open Media File. Locate the media file and click Open to play.

How to play DVD via 5KPlayer?

There are two ways to play a DVD disc via 5KPlayer.

8 🗢 🛛	5KPlayer Library	L Airplay
	● ○ ○ Open DVD Disc	
	Choose the source DVD Disc	
	DVD Discs: FROZEN +	
	Cancel Open	
	MacX DVD Ripper Pro – designed to backup & rip DVD to iPhone Androi	
	Support Ripping the Latest DVDs	
	Rip DVDs to iPhone iPad Android Free Download	

1. Click the DVD icon in the main interface of 5KPlayer to load a DVD in DVD drive for playback and click Open to play. PS, if you want to playback DVD disc on your iPhone, iPad and other devices, please try MacX DVD Ripper Pro.

2. Go File -> Open DVD Disc. You are also able to open a DVD ISO file and VIDEO_TS folder this way.PS, DVD ISO Image and DVD Video_TS are also supported.

How to listen to radios with 5KPlayer?

Step One: Click the Radio icon in the main interface of 5KPlayer.

Step Two: Copy and Paste a radio URL and click Play. BBC Sport Live, CBS Sports Radio, NBC Sports and music Radios are preset in the program, you can just double click the icon to license to radios you like.
